Call for Presentations

The scope of the workshop is on collaboration and cross-fertilisation of Cognitive Radio Networks research, between the three ITU regions, we encourage presentations that highlight the on-going work on the following areas:

- cognitive radio network approach,
- system architectures,
- spectrum allocation,
- spectrum access.

The aim of the workshop is to facilitate discussions and exchange ideas, thus we are seeking for submission of abstracts (no longer than 800 words) outlining your ideas and approaches. Once an abstract has been accepted, the author will need to produce a deck of slides to be presented at the workshop. The length of the presentation should be 30 minutes plus 10 minutes for questions. Both slides and abstracts will be made available in the proceedings of the workshop.

All presentations have to show their explicit relation to the **provision of QoS and the handling of mobility in CR systems**.

Important dates:

Submission of abstracts	28.02.2011
Notification of acceptance	15.03.2011
Submission of camera ready presentation materials	15.04.2011

Submissions to be made using the [QMCC'11 submission page](#) on easychair
